Tom M. Ragonneau

Postdoctoral Fellow

The Hong Kong Polytechnic University, Hung Hom, Kowloon, Hong Kong

tom.ragonneau@polyu.edu.hk | www.tomragonneau.com | github.com/ragonneau

Education

The Hong Kong Polytechnic University — *Hong Kong*

PhD in computational mathematics — *Sept. 2019–Aug. 2022*

- Co-supervised by Dr. Zaikun Zhang and Prof. Xiaojun Chen.
- Support was provided by the UGC of Hong Kong under the Hong Kong PhD Fellowship Scheme (ref. PF18-24698).
- Thesis titled "Model-Based Derivative-Free Optimization Methods and Software."

Toulouse INP-ENSEEIHT — *Toulouse, FR*

MSc in scientific computing — *Sept. 2018–Aug. 2019*

- Graduated in Performance in Software, Media and Scientific Computing.

Toulouse INP-ENSEEIHT — *Toulouse, FR*

MEng in computer science and applied mathematics — *Sept. 2016–Aug. 2019*

- Graduated in High-Performance Computing and Big Data.

Work experience

The Hong Kong Polytechnic University — *Hong Kong*

Postdoctoral Fellow — *March 2023–Present*

- Research projects related to derivative-free optimization.
- Maintenance of the COBYQA package.
- Maintenance of the PDFO package.

The Hong Kong Polytechnic University — *Hong Kong*

Research Associate — *Sept. 2022–Feb. 2023*

- Finalize the initial version of the COBYQA package.
- Maintenance of the PDFO package.

The Hong Kong Polytechnic University — *Hong Kong*

Research Assistant — *March 2019–Aug. 2019*

- Initial development of the PDFO package.

Research interests

My research interests include mathematical optimization and its applications, especially

- derivative-free optimization methods, and
- methods based on inaccurate information.

Publications

Journal Articles

An optimal interpolation set for model-based derivative-free optimization methods
T. M. Ragonneau, Z. Zhang
arXiv: `2302.09992 [math.OC]`, 2023

PDFO: a cross-platform package for Powell's derivative-free optimization solvers
T. M. Ragonneau, Z. Zhang
arXiv: `2302.13246 [math.OC]`, 2023

PhD thesis

Model-Based Derivative-Free Optimization Methods and Software
T. M. Ragonneau
PhD thesis, The Hong Kong Polytechnic University, 2022

Software

COBYQA: Constrained Optimization BY Quadratic Approximations
T. M. Ragonneau, Z. Zhang
Version 1.0.dev0, 2022. URL: `https://www.cobyqa.com`

PDFO: Powell's Derivative-Free Optimization solvers
T. M. Ragonneau, Z. Zhang
Version 1.2, 2021. URL: `https://www.pdfo.net`

Presentations

2023	**ICIAM2023**, COBYQA — a derivative-free trust-region SQP method for nonlinearly constrained optimization	*Tokyo, JP*
2023	**OP23**, COBYQA — a derivative-free trust-region SQP method for nonlinearly constrained optimization	*Seattle, US*
2023	**CSE23**, COBYQA — a derivative-free trust-region SQP method for nonlinearly constrained optimization	*Amsterdam, NL*
2021	**OP21**, PDFO — a cross-platform MATLAB/Python interface for Powell's derivative-free optimization solvers	*Online*

Peer reviews

INFORMS Journal on Computing and IMA Journal of Numerical Analysis.

Skills

Programming	Python, MATLAB, Julia, Fortran, C/C++.
Miscellaneous	Linux, Shell (Bash/Zsh), LaTeX, Git, SVN.

Languages

English	Full professional proficiency
Cantonese	Elementary proficiency
German	Limited working proficiency
French	Native proficiency
