Tom M. Ragonneau

Postdoctoral Fellow

The Hong Kong Polytechnic University, Hong Kong, China

tom.ragonneau@polyu.edu.hk | tomragonneau.com | 0000-0003-2717-2876

Education

The Hong Kong Polytechnic University — *Hong Kong, China*

Doctor of Philosophy — *Sept. 2019–Aug. 2022*

- Co-supervised by Dr. Zaikun Zhang and Prof. Xiaojun Chen.
- Supported by the Research Grants Council of Hong Kong under the Hong Kong PhD Fellowship Scheme.
- Thesis title: "Model-Based Derivative-Free Optimization Methods and Software" [4].

Toulouse INP-ENSEEIHT — *Toulouse, France*

Master of Science in Computer Science — *Sept. 2018–Aug. 2019*

- Graduated in Performance in Software, Media, and Scientific Computing.
- Research project: establish a deep learning approach for estimating the coastal bathymetry [1].

Toulouse INP-ENSEEIHT — *Toulouse, France*

Master of Engineering in Computer Science and Applied Mathematics — *Sept. 2016–Aug. 2019*

- Graduated in High-Performance Computing and Big Data.

Lycée Carnot — *Dijon, France*

Preparatory Classes for Grandes Écoles — *Sept. 2014–Aug. 2016*

- Undergraduate studies to prepare for a highly competitive national examination.
- Subjects: Mathematics and Physics.

Work experience

The Hong Kong Polytechnic University — *Hong Kong, China*

Postdoctoral Fellow — *March 2023–Ongoing*

- Laboratory: CAS AMSS-PolyU Joint Laboratory of Applied Mathematics.
- Research projects related to derivative-free optimization.
- Maintenance of the COBYQA [5, 9] and PDFO [3, 6] packages.

The Hong Kong Polytechnic University — *Hong Kong, China*

Research Associate — *Sept. 2022–Feb. 2023*

- Research projects related to derivative-free optimization.
- Finalization of the development of the COBYQA [5, 9] package.
- Maintenance of the PDFO [3, 6] package.

The Hong Kong Polytechnic University — *Hong Kong, China*

Research Assistant — *March 2019–Aug. 2019*

- Initial development of the PDFO [3, 6] package.
- End-of-study internship for the Master of Engineering.

Research interests

My research interests include mathematical optimization and its applications, especially

- derivative-free optimization methods,
- methods based on inaccurate information, and
- randomized methods.

Publications

Journal articles

Presentations

COBYQA: a derivative-free trust-region SQP method for nonlinearly constrained optimization *Tokyo, Japan*

The 10th International Congress on Industrial and Applied Mathematics *2023*

- Minisymposium: Derivative-Free Optimization Theory, Methods, and Software.

COBYQA: a derivative-free trust-region SQP method for nonlinearly constrained optimization *Taiyuan, China*

The 14th International Conference of Numerical Optimization and Numerical Linear Algebra *2023*

- Contributed talk.

COBYQA: a derivative-free trust-region SQP method for nonlinearly constrained optimization *Seattle, WA, USA*

SIAM Conference on Optimization *2023*

- Minisymposium: Blackbox Optimization and Derivative-Free Algorithms II - Part II of III.

COBYQA: a derivative-free trust-region SQP method for nonlinearly constrained optimization *Amsterdam, Netherlands*

SIAM Conference on Computational Science and Engineering *2023*

- Minisymposium: Theory and Applications of Derivative-Free Optimization - Part II of II.

PDFO: a cross-platform MATLAB/Python interface for Powell's derivative-free optimization solvers *Online*

SIAM Conference on Optimization *2021*

- Minisymposium: Advances in Derivative-Free Optimization - Part II of IV.

Teaching

The Hong Kong Polytechnic University *Hong Kong, China*

Basic Mathematics II - Calculus and Linear Algebra *2021*

- Tutorials (40 hours).
- Bachelor level.

The Hong Kong Polytechnic University *Hong Kong, China*

Basic Mathematics I - Calculus and Probability & Statistics *2020*

- Tutorials (40 hours).
- Bachelor level.

Peer reviews

SIAM Journal on Optimization, IMA Journal of Numerical Analysis, and INFORMS Journal on Computing.

Skills

Programming Python, MATLAB, Julia, Caml, Fortran, C/C++, Java, Ada, Linux, macOS, shell (Bash/Zsh), LaTeX, Git, SVN.
Miscellaneous Interpersonal communication, pedagogy, critical thinking, patience, empathy, scientific rigor.

Languages

English Full professional proficiency.
French Native proficiency.
German Limited working proficiency.
Cantonese Elementary proficiency.
